‘MANAGED ENROLMENT’ SCHOOL

Officially from 01 July 2014, Lowood SS has become a ‘Managed Enrolment’ School.

Why and what does this mean for our school community?

The Queensland Department of Education has decided that school facilities can be better utilised with a managed enrolment program. Some schools have a number of empty classrooms, while some other schools require additional classrooms because of greater enrolments. In order to manage the program, schools which are at 90% capacity will automatically be enrolment managed. Similarly, when schools drop below 90% capacity they will come off enrolment managed.

A major part of the ‘Enrolment Managed’ process is a defined area for enrolment purposes.

Consequently, we will only enrol students from the defined area.

If a student from beyond the defined enrolment area is attending Lowood SS, then, all siblings from that family are entitled to be enrolled.

Special considerations are available, however, there are rare and only granted by the Regional Director in special circumstances.

Should you have any questions in relation to this, please contact the School.
